Castle Wine Tasting & Sky View

You will see that you will be amazed when you realize you can enjoy an aperitif in company admiring the view and the architectural beauties of one of the most suggestive cities in Italy. Enter for once in the historic Chigi Tower, in the center of Sangimignano in the heart of Tuscany. Despite the years of the tower, a historical building built in the 13th century during the age of gold and the prestige of the city, it is still alive, today more than ever. The tower is now a cultural heritage protected by UNESCO.

You will have the opportunity to capture these moments with photoshoots together with a professional photographer; really an experience to try. The tower's top-floor pine terrace offers a cozy and romantic setting in which to relax for a cocktail and a unique photoshoot. If you are thinking of making the proposal to the person you love, book this package to capture the special moment in San Gimignano with professional photos and videos.

Accompanied by a photographer, enjoy a 2-hour experience, during which you can ask the person you loved during a walking tour in the most romantic city in the world. Choose a departure time at the time of booking.
